DETAILED ACTION

Specification

1. The following obvious typo has been corrected:

In the Abstract, line 1: "o" has been changed to --to--.

Drawings

2. New corrected formal drawings are required in this application because the submitted drawings contain labels and notation in the German language. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1-5 are allowed.
4. The following is an examiner's statement of reasons for allowance:

With respect to the independent claim 1, prior art fails to disclose or make obvious a lead substitute material for radiation protection purposes in the energy range of an X-ray tube with a voltage of 60 - 125 kV, characterized in that the lead substitute material comprises Sn, Bi and optionally W, or compounds of these metals, and the composition of the lead substitute material is a function of the nominal lead equivalent value. A material containing Sn, Bi, and W, to be used as a substitute material for lead for radiation protection purposes in the energy range of an X-ray tube with a voltage of 60 - 125 kV has not been found in prior art.

The dependent claims 2-5 are allowable by virtue of their dependence upon the

independent claim 1.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bray et al. (6,517,774 B1 and 6,048,379) disclose a family of materials (including Sn and Bi) that may act as a replacement for lead in an application where the high density of lead is important and the toxicity of lead is undesirable, but these materials are not used for purposes of radiation protection.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nikita Wells whose telephone number is (571) 272-2484. The examiner can normally be reached on 8:30 AM - 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John R. Lee can be reached on (571) 272-2477. The central fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
